

K-LOVE radio broadcasting in the Gatesville and Central Texas area is a blessing in that it provides a type of programming and music which is not available on any other radio channel in this area. If K-LOVE were to be replaced by an LPFM, this community, especially the strong local Christian population, would be deprived of a radio station which is loved and respected here. K-LOVE is a listener supported station. Its very existence is evidence of support from the local population. Please do not allow K-LOVE to be replaced by an LPFM station! Thank you!
